The Christ Child of the Heart

When Christ, the Babe of Bethlehem is born
And cradled in the manger of the heart
The soul will waken to God-consciousness,
Know of the One it is a deathless part.

And as the babe unto full stature grows,
The soul will be illumined from above,
The well-springs of its being overflow
To all the world in streams of living love.

Souls that still slumber will from sleep awake,
When one so love-illumined comes their way,
And looking from the earth their eyes will see
The Star, that sheds for each a guiding ray:

Following its light their steps will come at last
Unto the Blessed One, and as they kneel
In adoration humbly at His feet,
They likewise shall Love's wondrous quickening feel.

Who "Fixes" Drunken Driving Charges?

Looking over newspaper reports of cases before the courts the past few weeks, we have been struck by the frequency of such statements as "John Doe pleaded guilty to drunken driving and was fined $50," or "John Doe was arrested after driving in an erratic manner and was certified drunk by a physician. He was fined $50 and given a suspended jail sentence."

We are informed that the minimum fine for drunken driving is $200. What does this $50 fine mean? The answer to this is rumored to be that the charges are changed from "drunken" to "reckless" driving. Who is responsible for the changes, and why? A man is no less guilty of drunken driving when no one is injured than when he takes the lives or his fellow citizens. He is a potential murderer and should be treated as such. Any judge or attorney who "fixes" a drunken driving charge is as guilty as the driver himself.

Carmel is fortunate in having a judge who has a mind of his own, but in practically every decision, one hears mutterings from certain groups that he ought to be recalled. More power to a conscientious judge, and the citizens themselves must see that "fixing" is stopped.

Protect Our Beaches By Ordinance

Now that Carmel has narrowly averted having tennis courts, swings and slides built upon her famous beach, it would be a splendid idea for the present council to pass an ordinance that nothing shall ever be put there to mar its natural beauties, and to legislate in such a manner that only a referendum vote of the people would permit such depredations. The Carmel Sun strongly recommends this step.

What is California coming to? One-fifth of all the liquor licenses in the United States are granted here and ten percent of the entire volume of liquor sold is sold in our state. California boasts, and has, the greatest number of miles of paved highways, and over these highways pass a growing number of cars each year. The result: More people killed in this state last year through traffic accidents than California lost through the World War.

We are undoubtedly worse off than in the old saloon days and the not so far back prohibition era. We now have saloons poorly regulated. Establishments sell ham sandwiches and become eligible to sell liquor. But they are still saloons—call them what you will, "The Smack," "The Cornucopia," "Joe's Place," or by any other name and they still stink to high heavens.

ELECTRIC REFRIGERATOR MAKES WORK EASY

Holiday entertaining is a simple matter now compared with the days of intensive preparation in which the whole family participated a few years ago.

One of the important appliances which contributes largely to the simplicity of food preparation for either simple or elaborate dinners, is the electric refrigerator, which has become indispensable in millions of homes within a few short years.

By disposing of the details of preparation a day ahead the hostess is left free on the holiday to enjoy her guests and the entertainment—a far cry from the days when two or three members of the family were required in the kitchen even though there was a servant.

Council Meets, Tennis Question Settled, Morse Donates Land

No more fighting over the tennis courts! The troublesome question that has vexed Carmel for years seems on the way to being solved, thanks to the generosity of the Del Monte Properties company through S. F. B. Morse.

At the special meeting of the city council last night, attended by a packed house, the offer of Mr. Morse was made through the mayor, James H. Thoburn, and met with cheers. Mr. Morse offers to deed as much land in that section known as the Abalone ball park as the city requires for recreation purposes, and it now seems probable that courts will be erected, regardless of whether the city obtains a WPA grant. Swings and slides for the children may also be erected.

Another question of interest settled at last night's meeting was the zoning into the business district of the property owned by the Masonic club on Lincoln. The zoning was permitted on condition that the club deed the property to a third party, perhaps the city, who will deed it back with restrictions that the location can never be used for anything except for club rooms or residential purposes. Zoning of adjoining lots was denied.

Mrs. Nelly Montague was present and made a talk before the council concerning federal art projects, which in Carmel would have to do with the adornment of publicly owned buildings or land. Peninsula artists would be engaged to do the work, 75 per cent of whom must come from the government relief rolls. An advisory committee, comprising well known artists, it was hinted, would have the say as to what projects shall be offered and who shall do the work. The mayor's committee will meet again and prepare a report which will be presented at a special meeting of the council in order to get things moving.

A communication was read from William P. Silva who stated that his name signed to the report of the mayor's committee to recommend projects as of October 16 was unwarranted; that he disagreed with every recommendation made therein.

A eulogy to the late Mrs. Jessamine Rockwell was read, a rising vote being taken, the audience also standing.

Definite steps were taken to have an eight-foot sidewalk laid on both sides of the block on which the new theatre is located, instead of the usual 12-foot walk. The landscaping in the middle of the street will also be reduced to a strip similar to that in the block adjoining, and diagonal parking spaces laid out to care for the the theatre crowd and the conjested area caused by having the post office on Ocean avenue.

BROTHER OF T. J. HEFLING PASSED AWAY SUNDAY

After a long illness, Peter G. Hefling passed away early Sunday morning at the home of his brother, Thomas J. Hefling at Lincoln and Seventh. He had been a resident of Carmel for the past five years, coming here in the hope of bettering his health. Immediate cause of his death was pneumonia.

Christmas carols will be sung in which the chorus, orchestra and audience will join. After the program there will be dancing and other forms of entertainment.

MONTEREY GUILD DOES ORDERS FOR CHURCHES

Among organizations on the peninsula, and one about which little has been heard is the Monterey Guild. This guild includes a group of artists who are well known in their work, among them being August Gay, Fred Todd, and Charles M. Sayres, with Miss E. Charlton Fortune as director.

Much interest at present is being shown in an order recently completed by the group of a tabernacle and set of candlesticks for the Convent of the Good Shepherd at Seattle. A set of hangings for the archbishop's throne in San Francisco was recently completed, and the members now have an order from a church in Piedmont. In fact, they have enough orders on hand to keep them busy for some time. Other workers of the guild include Robert Peterson, Myron Oliver, Lloyd Hecht and Mesdames Little and Langford of Pacific Grove.

CARMEL LOSES ANOTHER PIONEER, LUCY PEABODY

Carmel has lost another pioneer in the passing of Mrs. Lucy Peabody who died in a hospital Sunday. Funeral services were held Tuesday at Dorney's, in Monterey.

Mr. and Mrs. Alfred Mathews of San Francisco spent the weekend in Carmel to watch the progress on the house they are having built on San Antonio drive.

Miss Celia Seymour celebrated her birthday last Sunday by entertaining a number of friends at her studio in Carmel. Music, group singing and story telling by the fireside made up the evening's entertainment. Also the guests were given a special treat of hearing Miss Seymour's sister, Mrs. Robert Grenelle, perform at the piano.

The appointment of L. E. M. Cosmey as music instructor for the Monterey public schools has been made. Mr. Cosmey has made a name for himself in this line, having been active in school work here for the past nine years. Mr. Cosmey may be reached during the afternoons of this week at the Old Monterey school by parents who have children who wish to study music. Parents must provide for the instrments if the children are to be in the bands and orchestras. Mr. Cosmey will continue his work as director of Seaside and Del Monte schools, working there during the morning hours.

Two Carmel Women Killed In Auto Accident Last Friday

Carmel mourns the passing of two beloved citizens, victims of an automobile crash which occurred last Friday morning, December 13. Mrs. Jessamine Rockwell was killed instantly and Mrs. Esther Inglesby was fatally injured, dying Monday evening at 7:20 in a Salinas hospital. Mrs. M. J. Smith Lawler, the other occupant of the car, is still in a very serious condition in the hospital.

Mrs. Rockwel, Mrs. Englesby and Mrs. Lawler started out early Friday morning to San Francisco to spend the day shopping, and when north of Salinas, a short distance, they met in head-on collision with a car driven by Albert Rice, Jr., a bartender of Salinas, who was said to have been returning from a convention in San Francisco.

Rice never regained consciousness and passed away at 2:15 that afternoon.

There were no eyewitnesses to the tragedy but appearances at the scene indicate that Rice's car swerved suddenly to the left and struck the Rockwell car. Both cars are a total loss, and traffic officers report the accident as the worst they had ever seen.

Mrs. Rockwell had been a resident of Carmel for the past fifteen years and was always active in anything that would be for the betterment of the city. She served on the city council from 1928 to 1932, and was commissioner of light and water, and later of health and safety. She took interest in the schooi affairs and was a kind and thoughtful neighbor and friend.

She is survived by two children, Virginia Elliott, who is a radio hostess in the new NBC studio in Los Angeles and John, who is a student at U. C. Two sisters also survive, Mrs. Ray Carpenter of Pasadena and Mrs. R. H. Kocher of Mendocino.

Mrs. Englesby had resided in Carmel for the past three years and established a dressmaking salon at the Jasmine Bush, owned by Mrs. Rockwell and Mrs. Bertha Hopkins. With the closing of the shop, she continued her work as seamstress, having made many friends and patrons. At the time of her death she had her dressmaking establishment in El Paseo building at Dolores and Seventh, and was instructor of sewing in the Adult Education classes at Monterey high. Mrs. Rockwell assisted with the sewing.

Private funeral services for Mrs. Rockwell were held in Salinas Monday, but no announcement has been made as to the time of Mrs. Englesby's funeral, word being awaited from her mother and sister in the east.

Mrs. Lawler, the remaining crash victim, is the daughter of Mrs. Matilda J. Smith, with whom she lives in Carmel, and has a daughter, Jane, who holds a secretarial position in the bay region.

MOTORISTS MUST LIST CHANGES IN ADDRESS

Automobile owners who fail to notify department of motor vehicles within ten days of change in their address will be subject to arrest on a misdemeanor charge after January 1, 1936, according to a warning issued by the department.

California's new vehicle code requires notice of change in address whenever a person moves to a location other than shown on his application for a registration card or his certificate of ownership. Maximum sentence of six months in the county jail or a fine of $500, or both fine and imprisonment, is provided in the code for failure to obey the law.

Mr. Estep had to return home Wednesday but Mrs. Estep and son will remain until after Christmas. Mrs. Estep and Mrs. Barnett are sisters and have not seen each other for fifteen years. Another sister, Mrs. Carrie McEwan of Portland will also spend the holidays with Mrs. Barnett.

Christmas Seals have helped change the wide-spread belief that tuberculosis is incurable, into universal knowledge that it can be cured Better still, they have helped teach countless thousands how it can be prevented.

CARMEL YOUNG MAN IS WED IN RENO SATURDAY

A wedding of interest to many was that of Walter Neilsen, one of the popular Neilsen Brothers, owners of Market Del Mar on Dolores street, Carmel, to Miss Gwendolyn Day of Portland.

The ceremony was performed in Reno, and the young couple returned immediately to Carmel and are making their home at Fourth and San Carlos.

The romance began last spring when Miss Day visited at the home of Mr. and Mrs. Billinger in Carmel.

Today it is estimated that there are upward of forty thousand persons suffering from tuberculosis in California.

CHRISTIAN SCIENCE CHURCHES

"Is the Universe, including Man, Evolved by Atomic Force?" will be the subject of the Lesson-Sermon Sunday, December 22, in all Churches of Christ, Scientist, branches of The Mother Church, The First Church of Christ, Scientist, in Boston, Mass.

The Golden Text will be "Every house is builded by some man; but he that built all things is God" (Heb. 3:4). Other Bible citations will include: "O the depth of the riches both of the wisdom and knowledge of God! how unsearchable are his judgments, and his ways past finding out! For who hath known the mind of the Lord? or who hath been his counsellor? Or who hath first given to him, and it shall be recompensed unto him again? For of him, and through him, and to him, are all things: to whom be glory for ever. Amen." (Rom. 11:33-36).

The Lesson-Sermon will also include the following passage from the Christian Science textbook, "Science and Health with Key to the Scriptures" by Mary Baker Eddy: "From the infinite elements of the one Mind emanate all form, color, quality, and quantity, and these are mental, both primarily and secondarily. Their spiritual nature is discerned only the spiritual senses" (p. 512).

CHRISTMAS SEALS HELP PREVENT TUBERCULOSIS

Tuberculosis doesn't just happen, according to a statement of the California Tuberculosis Association in announcing the sale of Christmas Seals by sixty-five Associations in California. The statement said:

"There was a time when people thought disease struck by chance. They thought it was inherited. But now we know there are good reasons why it attacks some persons and passes others by.

"Tuberculosis comes only from contact with another case of tuberculosis. The real cause of the disease is a germ If a few tubercolosis germs get into a healthy body they do not harm because the body fights back, but if any germs get in, if the patients resistance is weakened, they may grow in numbers and destroy the body. They are like the seeds of weeds which if given a chance, destroy the garden.

"These germs may be passed from one person to another by kissing, coughing, or by using the same glass, spoon or towel. Often tuberculosis is spread by one who doesn't know he has it.

"If every case of tuberculosis that we know was tracked back to the case that caused it we should stop the spread of the disease. The doctor, the health officer and the public health nurse know how to do this but they must have our help.

"The vital thought of today in preventing tuberculosis is to trace the source of cases which are known, back to the cases which are unknown.

"The Christmas Seals, sold for one cent each, have made possible an organized campaign against tuberculosis for twenty-five years. But Christmas Seals do more than fight tubercelosis, since whatever helps prevent tuberculosis improves the general health of the community.

"These accumulated pennies provide nurses, doctors, and clinics and promote open air schools and preventoria.

"Most important of all they have brought a wide spread educational campaign which helps to make each community a more healthy place to live."

YULETIDE GREETINGS 1935

Because we cannot see each of you personally, we take this way of Greeting You-

May this joyous Christmas time bring you the blessings of great happiness and may the riches of friendship bind us together throughout the coming year.

REDUCED ELECTRIC RATES

Electric Service Costs Steadily Reduced for Our Customers

Electric rates have dropped steadily and consistently since 1928.

* * *

In 1928 electric rate cut saved our customers $2,418,900 yearly.

* * *

In 1930 electric rates again saved our customers $3,020,000 more yearly.

* * *

In 1935 an inducement rate saved our customers $1,600,000 in one year.

* * *

Now in 1935-1936 reduced electric rates save our customers $3,924,000 yearly.

Now more than ever electricity is the Biggest Bargain in Your Home.

BEFORE this month is out, you will be using cheaper electricity—much cheaper now than ever before. Many families will save enough on the electric bill each month under the reduced electric rates beginning with January bills, to receive much added service at little or no additional cost, depending upon their monthly use of electricity. To take advantage of the savings from the new low electric rates, many families right now are buying electrical gifts for Christmas.

Electrical Servants Cost So Little —Do So Much

What electrical servants does your family want for Christmas? Is it one of the new electric refrigerators? How about a really good reading lamp for your living room? Or perhaps housework can be made easier with a modern vacuum cleaner, washing machine or ironer? Then do not forget about a new radio, electric clock, sandwich grill, percolator, toaster, coffee maker or waffle iron. Many of these appliances, depending upon the amount of electricity you regularly use, can be operated for weeks and months with the savings from your added use of electricity under the reduced electric rates.

Electricity does more for you in your home and costs less than anything you buy. Let us help you plan to receive greatest benefit from the new low electric rates. Call at our office or phone for our representative.
